

This years season started with a tour to Hervey Bay for middle & senior players. Unfortunately the tour was disrupted due to cyclone Debbie. With only one game played the girls spent a couple of days getting to know each other, playing cards & games at the hotel. But thankfully they returned in one piece.

The committee were able to secure a fundraising activity with tennis. We had a very successful day running the met north canteen for the cross country carnival. The chip fryer being the hero of the day. Both tennis & hockey supporter group made a great profit of around \$700 each.

We were also involved in the term two monster raffle where we raised around \$650. Both these events were very successful.

We are considering ideas on how to put our money to good use.

We are hoping to give the girls a small gift at the sign on and possibly a pre season coaching clinic.

All the teams continued to improve each week with some great wins by all teams.

The committee would like to thank all the coaches and support staff for their continuing support to hockey at St. Paul's.

We would like to also thank Sam Gray for helping us organise the Hervey Bay tour we greatly appreciated all your hard work.

Neil White has informed us that he will step down as head of hockey due to his increased work load at the school and for some reason he wants to spend time with his family. We would like to thank Neil for his dedication to St. Paul's hockey over the last five seasons and wish him well in his hockey retirement.

We look forward to working with the next head of hockey. We are waiting to hear from Tim Hughes who the replacement will be.

Lastly I would like to thank Sandra, Moira & Neil for their continued support. We are a small group and have worked well to keep the hockey supporters group going.

We look forward to trying to build the group with some new members as our time is nearly over.

Suellen
