

This season has produced some great hockey. Even though not many games have been won the girls are improving each week especially the year 7 & 8 teams. Both teams are struggling for numbers but slowly things are coming together. A big thanks to some year 7 girls who are coming straight over from netball to help out the year 8 team. Also a big thanks to many other girls who are staying back after their game to help out the next game.

This year the hsg is selling ham & cheese croissants at the home games. So far we are making \$50-\$60 per week. We had average response from the monster raffle making approx \$560 and about \$450 from the joint bramble bay cross country canteen with the vsg.
