Vision, Philosophy and Values

At St Paul's School our vision is to be leading in educational thinking and practice. We believe that each person is uniquely crafted in the image of our creator God, each with gifts, talents, strengths and weaknesses. From birth we are on a journey towards the fulfilment of our God-given purpose. We were designed to be relational beings (both socially and spiritually), interacting with the world which has been entrusted to our care and interacting with each other in community. Learning is a result of our interaction with each other and our world. The more we embrace life, the more we seek to discover or create, the more we learn and the greater is our potential.

LEARNING IS A LIFE-LONG PURSUIT, OR JOURNEY, OF WHICH THE YEARS OF FORMAL EDUCATION FORM A SMALL PART. ST PAUL'S SCHOOL BELIEVES THAT THE PURPOSE OF EDUCATION IS TO:

- * create an environment whereby students can discover their identity and their gifts and talents without a fear of failure: Students should come to an understanding that success in life is the result of the ability to take risks. Often the greatest discoveries have been made through a mistake;
- * prepare students to become responsible and contributing global citizens in the increasingly complex world economy: Students should leave St Paul's School with a strong sense of empathy and a conviction to act when they see injustice and inequity, always seeking to put others rather than themselves at the centre of the community;
- * facilitate the growth of the whole person: Students should have the opportunity to grow academically, socially, emotionally, physically, aesthetically and spiritually;
- * develop in young people the confidence to shape the future: Students should be given opportunities to be flexible, to be able to discern change and adapt to their local environment without losing sight of their moral and ethical grounding. Students are encouraged to dream, imagine and create a future whereby their sense of fulfilment is attained;
- * develop in each student the fruits of the spirit: Students should embrace love, joy, peace, patience, kindness, goodness, faithfulness, gentleness and self-control as characteristics that will enable them to interact, communicate, relate to and serve others in community in an edifying and purposeful manner;
- * challenge students intellectually: Students should stretch their minds and imagination, critique, think collaboratively, analyse and communicate their knowledge and understandings and open pathways for future learning and opportunities.

St Paul's School is a student-centred Anglican community preparing balanced global citizens with a heart for servant leadership.

These beliefs are underpinned by our values: Faith, Learning and Community.

WE VALUE FAITH BELIEVING:

- * Each person is a unique creation of a loving, redeeming God and able to be empowered and sustained by the Holy Spirit through the teaching and life of Jesus Christ.
- * Each person can have a relationship with God, through Jesus Christ, demonstrated by modeling one's life on Christ, serving others and participating in the traditions and practice of the Anglican Church.

WE VALUE LEARNING WHERE:

- * Students are encouraged and supported as they strive to reach their intellectual, physical, social, moral, emotional and spiritual potential in a balanced and disciplined way.
- * Growth and personal excellence are celebrated, innovation is encouraged and a love of learning is fostered.

WE VALUE COMMUNITY WHERE:

- * Students, staff and families support the aims, purpose and mission of the school and serve one another using their God-given gifts.
- * Students, staff and families grow together in faith and learning, promoting love, justice and peace for all.

Headmaster Mr Paul Browning

Welcome to the 2013 St Paul's Rugby Season.

St Paul's School has a long tradition of Rugby. In the early days, invariably every boy would play for the School otherwise we could not field a team; an unthinkable thing when playing against schools much larger and older than us at that point in our history. It was in those days that the spirit of St Paul's Rugby was born. That spirit lives on today.

As we know, Rugby is a great game, a game for men. Its greatness is born out of the camaraderie and mateship that Rugby brings to all who play. This camaraderie only eventuates once every member of the team is committed to training hard and focused on playing as a team and not as an individual. Games are won and lost on the level of commitment to the team and the mateship that exists between the players.

2013 is destined to hold great things for St Paul's rugby. Be disciplined, train hard, be a team and play the game.

Head of Sport Mr Tim Hughes

The pride and passion of the Red Jersey, it is an honour, a tradition, a history; it is St Paul's Rugby. For over 50 years now the presentation of the Red 1st XV jersey has been a symbol of achievement and accomplishment, a representation of the dedication and commitment given to St Paul's Rugby. This pride and passion extends through to each individual who plays Rugby for St Paul's from our Year 4 Walla Rugby players to our 1st XV. Rugby is truly a game for everyone. It is so much more than just a sport, it is a vehicle where students learn the true meaning of mateship, camaraderie, where students learn how to win and how to lose. Where students learn how good success feels and also the lows of failure, but teaches them that every little thing learnt along the way is an experience and step toward creating strength of character. Being part of a team and contributing to something greater than individual performance is one of the purest enjoyments in life and St Paul's Rugby offers each student, coach, parent and spectator that opportunity, to be part of something great, to be part of the St Paul's Rugby community. 2013 is set to be an exciting year on the Rugby paddock. It gives me great pleasure to be involved in such a wonderful sport, and I encourage all to do the same.

St Paul's Rugby 2013 - Get involved!!!

Rugby Supporters' Group President Mrs Claire Jackson

The game of Rugby Union is reported to have originated in early 19th century England. Many Australians embrace this great sport as theirs, with disciplined control of emotions, anger and aggression key ingredients to success. Players make efforts to develop healthy bodies, improve on field skills, optimise concentration and determination and respect coaches and referees while working as a team.

The St Paul's School (SPS) community embraces all these qualities of rugby, with passionate support for the game guided by members of the Rugby Supporters' Group (RSG). The group is committed to encouraging as many students as possible to get involved in the sport. While there are challenges in motivating students to have sufficient commitment with the short TAS season, in 2013 we hope many students from years 4-12 will take the opportunity to play the sport (albeit modified version for younger students). Winning is important but rugby has the potential to deliver more than just a "good score on the board" with the development of fit, healthy, mature, respectful, well-mannered young people.

RSG anticipate the 2013 season, led by the recently appointed Head of Rugby Mr. Colin McIntosh, will be fantastic for all. RSG encourages SPS families to get involved. Whether you are player, a sideline supporter, a canteen volunteer, attend the touch judge course and/or come to the Annual Dinner your contribution will be welcomed.

Enjoy the season.

Head of Rugby Mr Colin McIntosh

Welcome to all players, parents, coaches and supporters to the 2013 rugby season at St Paul's School. Rugby is a fantastic team sport that caters for all and at St Paul's Rugby we strive to challenge boys of all ages and abilities to work towards improving their rugby skills and fitness. It is an excellent medium through which boys are able to learn valuable life skills such as sportsmanship, teamwork, leadership, commitment and discipline on and off the field to name a few.

The rugby season ahead has the potential to be a successful year for all those involved but to meet its full potential, a level of commitment and hard work is needed. As well as a want! A want to compete, a want to train, a want to win Those who are willing to go that extra yard for their teammates and themselves through the want and desire to succeed will do so. Failures and defeats will happen and players have to take these in their stride on their journey to success. I wish all teams, coaches, and players the best of luck this season and ask you this "How bad do you want it?"

St Paul's Rugby

The SPS Tradition

- . To develop an ongoing respect for the history of St Paul's Rugby
 - . To be proud of our efforts both on and off the field
- . To develop a sense of pride in our ability to set goals and work towards achieving them
- . To always represent our School well and respect the traditions of the game.

The SPS Passion

- . To instil a passion for playing the game of rugby
 - . To be passionate about wearing the St Paul's Jersey
- . To train with enthusiasm and match this training ethic with the on field performance

The SPS Commitment

- . To always do our best at training and during the games
 - . To train for perfection while learning from mistakes
- . To maximise benefit from all opportunities to prepare for games
 - . To not make excuses
 - . To produce performances that show honest effort

The SPS Team

- . To play for the team first
- . Show respect for team mates by giving 100% at training
 - . Placing the team's needs ahead of our own

TAS Sport

There are many reasons why schools offer sports and games. They provide an educational experience. They provide a sense of cohesion within the School. They provide opportunities for a wider range of experiences to be offered to students. They allow the School to be seen to be successful.

They contribute towards the building of character.

All students are expected to support the School and its activities any way that they can. As a minimum, students are expected to make themselves available for at least one major, or two minor extra-curricular activities per year.

Students, who are unable to represent the School in any activity, may earn Colour Points by: Umpiring, scoring, coaching, managing or assisting in any activity.

At St Paul's, coaches should expect high standards from their players at all times. High standards of dress, of conduct, of sportsmanship, attendance and punctuality at games and practices all contribute to the results obtained.

By following sound principles, teaching skills and developing fitness to appropriate levels, we can prepare students to play games to the best of their ability. It is not possible directly to coach for courage and bravery in the face of stronger adversaries, but if students have a good knowledge of, and skill in the game, they will do their best for themselves and their fellows.

Sport should be regarded as a component of a full and active life, not the only component. Students are to be made fully aware their academic commitments are of paramount importance. However, if they are taught properly to organise their time they will be able to fulfill their commitments in all aspects of School life. The students are advised to discuss their intended commitment to extra-curricular activities with their Tutor, Head of House and parents prior to signing up with a particular activity. Once a student has signaled their intention at the official sign on they are committed fully for the entire season.

A number of students will want to participate in more than one activity at a time e.g., cricket/swimming or rugby/cross-country. This is acceptable provided that they are able to fulfill all requirements of both and that the Head of House and parents feel they are competent to maintain the workload.

When the inevitable clashes between scheduled activities arise, students are to negotiate with the Coaches/ Teachers in Charge of the activities concerned to establish priorities and give advance warning of an inability to attend one or the other.

The School has adopted the Australian Sports Commission "Codes of Behaviour" for Students, Parents, Coaches and Spectators.

TAS Member Schools

Canterbury College, Cannon Hill Anglican College, John Paul College, Ormiston College, Redeemer Lutheran College, Rivermount College, St Columban's, St Paul's School, West Moreton Anglican College, Faith Lutheran College, The Springfield Anglican College.

TAS Rugby Draw (Years 7 to Opens)

Round 1 – Saturday, 20 April 2013

St Paul's – BYE (In-House Trial Games)
Year 7 Red – v Ormiston (Away)

Round 2 – Saturday, 27 April 2013

St Paul's v CHAC (Home Game)
ANNUAL BACK TO SPORT GALA DAY
All Past Players & Families are encouraged to attend
Year 7 Red – v Canterbury (Away)

Opens PTC – Lee Hall (garyleehall@bigpond.com)

General Information

Duty of Care: It is the policy of the School to exercise the "Duty of Care" principle in all aspects of the School's activities. It has been decided that the following procedure should be in place:

Staff are to remain with the students if their parents are late, until they are fetched. Parents can be contacted via a mobile if need be by the coach or staff member concerned. This applies off campus at a School-related activity organized by staff of SPS eg. an away game etc.

Parents need to, however, be reminded of collection times for games / practices and follow up on parents who are always late, needs to be addressed directly with them by the Head of Sport.

Coaches and staff need to clearly communicate finishing times with the parents involved to avoid late pick-ups by parents. Careful planning and scheduling of time allocated for an activity needs to be done as it is well known that in practice that there will always be the odd child who has not been fetched at the stipulated time.

Christian Ethos: This is a Christian School and players should be Christian in their approach, developing a healthy respect for all opponents whether supposedly stronger or weaker. A win/loss record is not the most important gauge of success, but rather the attitude and behaviour of the team in the light of the players' abilities and opportunities.

Relationships between members of the School community should be characterised by care and concern for each other, whether staff members or students. Care and concern for others should also be extended to members of the public.

ANYTHING WHICH IS CONTRARY TO GOOD MANNERS, COMMON SENSE AND DECENCY IS CONTRARY TO THE RULES OF THE SCHOOL.

Commitment: Sports are to be regarded as a recreation, not as a vocation. All coaches are expected to support the students in their primary objective and commitment to their schoolwork, as well as to the wide variety of activities that are "co-curricular". It is vital that all: Coach, parent and student alike, see the activities of the school as a part of the integrated total education package that we offer at St Paul's. Consequently, it is expected that students and coaches in any activity interact in a manner that would be construed as a professional relationship.

With proper organization students should be able to fulfill commitments to a number of activities during the year as well as to their schoolwork.

Therefore, once the commitment to an activity has been formalised through the appropriate procedures, (which follow), you may expect the support of the School when you require such a level of commitment in your teams.

Parents will have agreed to the full participation of their sons/daughters in activities when they endorse the following procedures:

Students wishing to participate in any sport will be required to:

- complete an application form from the Sports Office.
- have the application form signed by a parent and Head of House / Tutor
- return the form to the Head of Sport + Attend initial trials and training sessions

Selection of Players and Teams

Just as we expect a full commitment from our teams and their families, we have a responsibility to them, to ensure that everyone understands the policies of selection of teams. Please adhere to these guidelines:

- Where there are several teams in a sport in an age group, (as in Tennis, Netball etc.), the Head of that sport and the coaches of the age group will conduct trials. The "A" team will be selected first, followed by the "B" team, and so on. The Head of that sport will determine which coach is responsible for each team.
- If there are students who properly enrolled for the sport, they should receive priority over "late comers". When there is a greater number than can be accommodated in competition teams, names of those unplaced after trials should be passed to the Head of Sport who will attempt to organize intra-school competition for them wherever possible.
- The number of players selected in a squad for a higher age group will need to be agreed upon by the Head of the sport and the coaches of the teams involved, but failing agreement, a decision will be made by the Head of Sport. In general, where teams play at the same venue and at different times, a neat complement should be chosen for the "A" team so that the "B" team can be at its greatest strength and so that players are not kept as non-playing reserves when they could be given a whole game.

When teams in the same age-group play at different venues or at the same time reserves may need to be organized for each team. In this case, it is expected that no student who has turned up at the venue will be completely excluded from play, that even reserves will get reasonable playing time. It may be that different arrangements will need to be made from week to week, however, TAS Bylaws must be adhered to for all sports, especially Rugby. Players respect a firm and fair policy in these matters, and it is vital that team members, reserves and their parents know well in advance of the arrangements for each week's play. St Paul's is keen to foster the participation of all its students, not only the handful of particularly gifted players. The coach is to ensure that all players receive a "fair go" despite the temptation to rely on a core of stronger players.

Age Groups: It cannot be stressed too much that players may play only in their correct year group or higher for all TAS sports, and age group for all TAS carnival sports, as is allowed for in TAS Rules, and only in one age group or year group in a particular round of competition.

Each student's age shall be taken as at 00.01 a.m. on January 1st 2013.

For all sports except Rugby, no student shall be 19 years or older at 00.01 a.m. on January 1st 2013 to be eligible for TAS sport in 2013.

For Rugby, no student shall be 18 years or older at 00.01 a.m. on January 1st 2013 to be eligible for TAS matches in 2013.

That for all sports, allowance be made for a student's age to be taken as at 00.01am on November 1 in the year prior to competition when it enables the student to play with his year level.

Other General Information

Parent Team Coordinator (PTC) for St Paul's School (SPS) Rugby 2013

PTCs enhance sports programmes at SPS. The School and Rugby Supporters' Group (RSG) place enormous value on PTCs. Willingness to volunteer for this position is greatly appreciated.

Each team will have one or more coaches. The coaching position will be taken by a staff member, who may be supported by a parent (current or past), a past student or an externally contracted coach. The coach is responsible for training and match day activities. A team may have a manager appointed by school. If not, the PTC may take on some managerial duties to assist the team.

The PTC's primary role is to **act as a liaison** between coach, manager (if one is appointed), School, RSG, team members, and their families.

Correct Rugby Uniform

All Rugby Players must have the correct uniform. No player will be allowed on the field if they do not have the correct uniform – ie green St Paul's rugby shorts, green and red socks, Mouthguard and rugby boots (headgear is optional). For the First XV Players – they must wear the correct white shorts, red socks, mouthguard and rugby boots (headgear is optional)

Rugby Canteen – Home Games

All teams must supply at least 2 parent helpers for the hour period before their child's games. Our Canteen Co-ordinators – Kimberley Reed and Noel Paterson – will be there to introduce you to the other parents and to show you what to do. No experience necessary!

Washing of Jerseys

Your Team's PTC will arrange a roster for the washing of the jerseys after each game. It will then be your responsibility to make sure these are returned to the Coach at the next week's game.

Touch Judges

Each team must provide a parent/supporter touch judge for their game. The opposing team will provide the other. Please contact your PTC if you have been a Touch Judge previously and are willing to be involved in your child's game.

Arrival at the Game

All boys must wear their formal school uniform (tie and blazer for Years 7-12) to the games each week. The First XV must also change back into their school uniform at the completion of their game, however all other teams may change into their St Paul's sports uniform.

General Inquiries

For general inquiries, if your PTC is unable to assist, please contact our Secretary, Judy Watts on email: judy@eventextras.com.au or mobile 0413 12 1235
