

TOUCH REPORT

It is hard to believe that we only have three games left for the season. We will have tough competition again this week with CHAC as they are also a pretty polished outfit. All teams have been training very hard with their respective coaches and should be up to the challenge this week.

Goods wins were recorded against St. John's and helped build the confidence levels within the teams. As this is our last home game for the season it would be fantastic to see plenty of Supporters' on the sidelines cheering the girls' on. Let's go girls'!

Tour Update

It is now just under three weeks until the Touch team leaves for our very first tour to New Zealand. The itinerary is stacked full of organised Touch games and fun activities as well. I am sure this Tour will be a great success and we must thank Ms. Trudgian for all her efforts in pulling this together. The girls' will have plenty of tales to tell on their return.

Blue Day

Saturday is the allocated day for the St Paul's School Supporters' Association's annual Blue Day to raise awareness for Prostate cancer, our inaugural Blue Day was held last year in the memory of Andrew Pope, a very well loved and respected member of the St. Paul's community who succumbed to this disease in 2104.

Our girls' will be wearing blue ribbons in their hair and blue war paint. CHAC have also been invited to join in the fun. All Supporters' please wear something Blue and join in the fun. A great raffle has been organised and tickets will be on sale on the day. Football and Volleyball Supporter groups will join with Touch and the community to make this a fun day.
