

Touch Football Report

Touch held their first meeting for the year earlier this month to plan the season ahead.

- Our main focus at this point in time is the replacement of our existing playing shirts which we have had for the last five seasons and are on their last legs! The committee is working extremely hard to make this happen by seeking sponsorship to cover the costs of replacement shirts for all seven teams.
- "Sign on" is our next focus which will be happening in the next couple of weeks.
- Another focus will be seeking parents to join our great committee as we have at least six of our team exiting the school this year.
- Erica Trudgian, Head of Touch will again be submitting an application seeking approval from the School for a Touch tour in 2017. So watch this space later in the year!
- Our 6th season should be a cracker with some great fundraising ideas planned throughout the season.

Sadly this will be my last report as Touch Football President, as I am finally retiring after establishing the Touch Supporter Group. I am very pleased to announce that our new President (after the Association meeting) is Gerard Yorston. Some of you probably already know Gerard and I know he is keen to keep the group focused on moving forward. I wish to sincerely thank my Committee who have been along for the ride for the last three years, without them the Touch Supporters Group would not have been as successful as it is.

Also to the other Supporter Groups I say thank you as it has been wonderful working with you all.

Take care everyone

Dorelle Stubbings

Retiring Touch Football President
